Kazuya Ishigami es un compositor, diseñador sonoro, ejecutante e ingeniero de sonido japonés quien reside en Osaka.

Desde 1997, Ishigami ha editado una veintena de discos en solitario y en colaboración con renombrados músicos de la electrónica experimental como Tomas Korber, Federico Barabino, Anla Curtis, entre otros.

Este álbum de catorce temas esculpido cuidadosamente a través de un software de diseño sonoro transita entre la electrónica experimental y la electroacústica.

La música de Ishigami mientras se desarrolla va incorporando capas de sonidos y drones y nos propone lugares inexplorados, abstractos y oscuros.
