Ogive | "Folds" | Room40 | 2017

Ogive | "Folds" | Room40 | 2017

Esta es una colaboración entre los artistas Chris Herbert del Reino Unido y el español Elías Merino quienes proponen una electrónica minimalista basada en el trabajo de sonidos procesados utilizando objetos encontrados, ondas de radio, registros de campo, así como sonidos generados por computador. La simbiosis entre la electrónica análoga y digital.

“Folds” contiene cinco temas que desarrollan densas atmósferas cuya diversa paleta de sonidos

está fuertemente procesada.
